II. INFORMATION ABOUT BASIC ACTIVITIES

HYDROBUDOWA POLSKA Capital Group operates in the fields of civil engineering, general construction works, hydraulic engineering, complex industrial projects, real estate developments, construction of subway, road, rail, ventilation and pedestrian tunnels.

The activities of the Capital Group are divided into five main sectors:

- **natural gas and crude oil,**
- **water,**
- **fuels,**
- **residential and industrial construction**
- **roads.**

NATURAL GAS AND CRUDE OIL	WATER	FUELS
<ul style="list-style-type: none"> ■ natural gas and crude oil ground mining facilities ■ natural gas liquefaction facilities and LNG storage and regasification facilities ■ LPG separation and storage stations, C5+ ■ desulphurisation plants ■ natural gas underground storages of ground mining facilities ■ crude oil tanks ■ transmission systems of natural gas, crude oil, including: reduction and measurement stations, measurement and settlement stations, mixing stations, distribution mains, compressor stations, etc. ■ LNG facilities 	<ul style="list-style-type: none"> ■ technological and sanitary facilities for sewage and water supply systems such as: <ul style="list-style-type: none"> - waterworks - sewerage systems - water mains and interceptors - water intake points - wastewater treatment plants ■ hydrotechnical facilities, such as: <ul style="list-style-type: none"> - water dams - storage reservoirs - flood defences (dykes) ■ renovation of waterworks and sewerage systems 	<ul style="list-style-type: none"> ■ fuel warehouses, tanks <p>CONSTRUCTION OF BUILDINGS (INDUSTRIAL, RESIDENTIAL AND SPORTS)</p> <ul style="list-style-type: none"> ■ commercial facility projects ■ industrial halls ■ sports facilities ¹ residential buildings <p>ROADS</p> <ul style="list-style-type: none"> ■ Road construction ■ Bridge construction ■ Tunnel construction, e.g. subway, road, rail tunnels ■ Parking lots

In addition, the Capital Group defined an additional sector: 'Others'. It covers revenues from sales of goods and materials, which are not classified under five main sectors.

The Capital Group presents its revenues from sales, expenses and result (gross profit margin) broken down into these segments, but does not present its assets and liabilities in the Balance Sheet by segments, as some tangible fixed assets (PP&E) are used in production classified under several different segments and it is not possible to allocate the inventory of materials to individual segments; it is also not possible to allocate trade payables as well as other operating and financial revenues and expenses to specific segments.

III. INFORMATION ABOUT CHANGES ON MARKETS

Total net profit from sales (activities)	2009	2008	Difference (PLN in thousand)	Difference (%)
	(PLN in thousand)	(PLN in thousand)		
natural gas and crude oil	4 240	-	4 240	-
Water (hydraulic engineering and Environment Protection)	840 134	961 678	- 121544	- 12.64%
Fuels (fuel storage)	22 277	106 464	- 84 187	- 79.08%
residential and industrial construction	729 555	36 935	692 620	1 875.24%
roads	24 127	1 891	22 236	1 175.89%
Other	55 290	118 524	- 63 234	- 53.35%
Total net profit from sales	1 675 623	1 225 492	450 131	36.73%

The column 'Other' indicates revenues and expenses not attributed to other sectors i.e.:

- sales of goods and materials
- revenues from other activities than construction services.

Changes in the markets are a consequence of a diversification of strategy, i.e.. expansion into new sectors such as construction of football stadiums for European Football Championship in 2012 and incineration plants.

The biggest increase in revenues could be observed in the sector of **residential and industrial construction**. They are related to construction of sport, industrial, office, commercial, hotel and conference buildings.

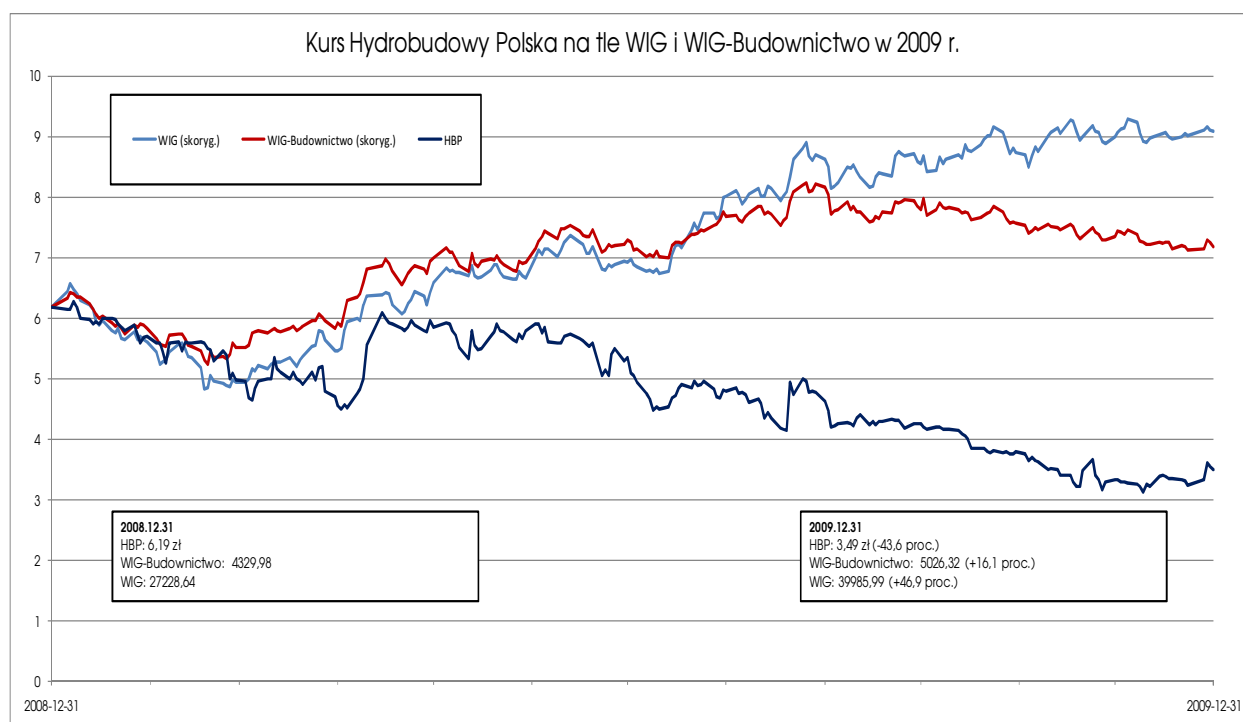

Water **sector** amounted to 50.14% of all net sales in 2009. Contract from this sector are co-financed by the European Union, are characterized by high unit value and are related to hydraulic engineering and environment protection. The company foresees an increase in sales revenues in this sector due to new investments from the field of hydraulic engineering and environment protection as well as inflow of European funds.

A highly dynamic sector of the Capital Group is **industrial construction and housing**, which include general construction works and industrial infrastructure..

The share of this sector in net profit from sales in 2009 was 43.54%(compared to the same period of the previous year the share increased by 1 874.24%).

This share is a result of contracts, executed by the Capital Group, for the construction of football stadiums in Warsaw, Gdańsk and Poznań and for the construction of Waste Management Plant in Gdańsk-Szadółki.

IV. Rate of the Company at Warsaw Stock Exchange Index - Construction Market in 2009

V. SHAREHOLDERS CARRYING AT LEAST 5% OF NUMBER OF VOTES AT THE GENERAL MEETING OF SHAREHOLDERS AND CHANGES IN THE OWNERSHIP STRUCTURE OF LARGE PARTS OF SHARES OF THE ISSUER

On 31 December 2009 the share capital of the Company was PLN 210 558 445 and was divided into 210 558 445 ordinary bearer shares with nominal value of PLN 1.00 per share.

Shareholders' structure of the Company

The shareholders' structure of the Company, based on shareholders notification during General Meeting of Shareholders as of 31 December 2009

No.	Shareholder	Number of shares	Number of votes	Share in equity of the Issuer	Share in total number of votes during General Meeting of Shareholders
1.	PBG SA	132 098 185	132 098 185	62.74%	62.74%
2.	ING OFE	10 550 000	10 550 000	5.01%	5.01%
3.	Other shareholders	67 910 260	67 910 260	32.25%	32.25%
TOTAL		210 558 445	210 558 445	100.00%	100.00%

The following changes took place in the shareholders' structure in 2009.

Sale of shares in GÓRECKA PROJEKT Sp. z o.o.

On 25 June 2009, PBG Capital Group companies – Hydrobudowa 9 SA (a subsidiary of Hydrobudowa Polska SA) and PBG Dom Sp. z o.o. (a subsidiary of PBG SA) signed a contract of sale of all shares of Górecka Projekt Sp. z o.o. with its registered office in Poznań.

Pursuant to this agreement HYDROBUDOWA 9 SA sold 1 000 shares, at the nominal value of PLN 50.00 each, which constituted 100% of votes at the General Meeting of Shareholders and 100% of the share capital of GÓRECKA PROJEKT Sp. z o.o. for the sum of PLN 50 000.00.

This transaction is connected with the reorganisation process in PBG Capital Group, where PBG Dom Sp. z o.o. will be responsible for real property management.

XI. INFORMATION ABOUT BUY-BACK OF SHARES

In the period covered by the report HYDROBUDOWA POLSKA SA did not buy-back its own shares.

XII. DESCRIPTION OF RELATED PARTIES TRANSACTIONS

In the period covered by the report, there were transaction with related parties, which value exceeded EUR 500,000 translated into PLN. These transactions were standard and they resulted from current operations of HYDROBUDOWA POLSKA SA and its subsidiaries, and were concluded on the market terms.

Moreover, some transactions are the result of agreements with Financial Institutions, whose one of securities are mutual sureties or guarantees of entities from PBG Capital Group, which are parties to agreements.

This approach reconciles the financial strategy of PBG Capital Group

The most common types of transactions are:

- contracts for construction works,
- loan agreements,
- surety agreements:
 - credit limits,
 - guarantee limits,
 - guarantees, etc.

XIII. INFORMATION ABOUT INCURRED CREDITS AND LOAN AGREEMENTS

Information about credits and loan agreements for the period covered by the consolidated financial statements are included in explanatory note to the consolidated financial statements, no. 9.5

XIV. INFORMATION ABOUT LOANS

Information about loans taken out for the period covered by the consolidated financial statements are included in the explanatory notes to the consolidated financial statements under no. 9.2.1

XV. USE OF INCOME FROM SERIES K SHARES

1. Aim of the issue of Series K Shares

The following table shows amounts, which the Issuer planned to spend from 2008-2009 and which were spent in 2008-2009 to achieve goals of the issue.

	Aim of the issue	Amount Planned (2008 – 2009)	Amount spent in 2008	Amount spent in 2009
1	Computerization	PLN 5,000,000	-	-
2	Acquisitions	PLN 50,000,000	PLN 48,417,894.90	PLN 5,000,000.00
3	Investments in fixed assets	PLN 55,000,000.00	PLN 35,000,000.00	PLN 4,582,195.10
4	Financing of contracts	PLN 183,000,000.00	PLN 130,000,000.00	PLN 70,000,000.00
	TOTAL	PLN 293,000,000.00	PLN 213,417,894.90	PLN 79,582,105.10
	TOTAL EXPENDITURES		PLN 293,000,000.00	

2. Used income from the issue of series K shares

Thanks to the issue of 35 000 000 series K shares without pre-emptive rights, at the issue price of PLN 8.80, HYDROBUDOWA POLSKA SA gained PLN 308 million, which were spent for:

Financing of contracts: PLN 183,000,000.00

Acquisitions

- **Acquisition of shares** in HYDROBUDOWA POLSKA KONSTRUKCJE Sp. z o.o. (HYDROBUDOWA POLSKA SA acquired 16 100 shares with the nominal value of PLN 500 per shares and for the total value of PLN 8 050 000.00
- **Acquisition of shares in P.R.G. „METRO” Sp. z o.o** - HYDROBUDOWA POLSKA SA acquired 5 543 shares with a nominal value of PLN 1000 each and for the total value of PLN 45 367 894,90

Investments in fixed assets:

Expenditure of PLN 39 582 105.10 for specialist construction equipment.

XVI. EXPLANATION OF DIFFERENCES BETWEEN THE FINANCIAL RESULTS AND FORECASTS

On 29 April 2009 the forecast of consolidated financial results of HBP Capital Group was published.

It anticipates:

- consolidated sales revenues in the amount of PLN 1 500 000 000
- consolidated operating profit in the amount of PLN 114 000 000
- consolidated net profit of about PLN 92 000 000.

On 15 March 2010, after an analysis of contracts performed by the Company and forecasted results of the companies from HYDROBUDOWA POLSKA Capital Group, due to higher than expected incomes from sales, the Board of Directors increased the forecast for the consolidated incomes from sales for 2009 to PLN 1 670 000 000 i.e. by 11%.

Other elements of the forecast remained unchanged

Forecast and its execution of selected items from the consolidated profit and loss account are presented in the following table:

forecast volume	Forecast /PLN in million/	Adjustment /PLN in million/	Execution /PLN in million/	Forecast implementation /in %/
Net sales revenues %/	1 500	1 670	1 676	100,36%
Operating profit	114	-	115	100,88%
Net profit	92	-	98	106,53%

XVII. ASSESSMENT OF CASH MANAGEMENT

Basic goals of financial activities are focused on providing funds and financial guarantees for continuous growth potential and development of HBP Capital Group. In 2010 we plan to achieve the essential goal of HBP Capital Group i.e. strengthening the Group's position on the markets of environment protection, hydraulic engineering and specialist construction.

We consider the overall financial situation of HBP Capital Group in 2009 as very good. Operating activities yielded profit in the amount of PLN 38 219 000 Investment activities had a negative result mainly due to the purchase of tangible fixed assets. The negative result of the financial activities of PLN 10 533 000 was caused by the use of foreign funds and maintenance costs. A part of the financial obligations was repaid by operating incomes, and the contracts, which started in 2009, were financed from loans taken out by HBP Capital Group.

The risk of liquidity due to long commercial cycles i.e. between financing the ongoing contracts and the date of payment of invoices of executed works is minimized by bank limits and the risk of not adjusted annual credit limit to longer cycles is eliminated by the diversification of limits between different banks. The financial terms of long-term contracts of high value together with the necessity of committing substantial cash cause that the Group may be exposed to the threat of losing the liquidity. Therefore, the Board focuses on maintaining good relation with financial institutions.

The financial crisis on the global markets brought up the risk of reduced sources of financing. Nevertheless, the Capital Group increased the scope of cooperation with financial institutions. The Board of Directors estimates that the age and quality structures of receivable do not threaten the Group's liquidity.

Thus, the Board assesses that the HBP Capital group will be able to pay its obligation in due time.

The stable financial condition of the Capital Group result in its high credibility among the financial institutions. The financial strategy adopted by PBG Capital group in the previous years has been continued. It consists in the diversification of financing resources and bank and insurance products, unification of financial products, decreasing financial costs. These actions allow reducing the operating risk.

Therefore, it can be assumed that the financial strategy of the Capital Group and the Company resulted in the diversification of financial sources of ongoing investments, which in turn resulted in stability of executed and planned contracts.

XVIII. FINANCIAL INSTRUMENTS USED BY THE COMPANY:

In the face of steadily declining EUR/PLN rate in the first half of 2008, HBP Capital Group secured itself by opening currency options and in this way protecting itself from losses on contracts, co-financed by the European Union. Due to the global crisis on the financial markets in 2009 and rapid growth of EUR/PLN rate, the group observed negative outcome of the currency options. Thanks to high EUR/PLN exchange rate the Group had higher incomes translated in PLN on construction contracts. This compensated for the negative impact of currency options in 2009.

In 2009, HYDROBUDOWA 9 SA, a company from HBP Capital Group, concluded some forward transaction, for the total value of EUR 24 000 000, to secure margins on the contract "Construction of sewage transport system from left-bank Warsaw to Czajka Wastewater Treatment Plant - Phase I

Currency transaction concluded by the Group have the aim to reduce the negative impact of foreign exchange changes on operational activity. HBP Capital Group did not conclude any transactions for speculation purposes. All transactions were carried out in accordance with the policy of security with regards to the contracts, valued in EUR. HBP Capital Group used forwards and NDF financial instruments.

Information about open security positions are included in the financial statements of HBP Capital Group for 2009, explanatory notes - note no. 9.3

XIX. MAJOR EXPENDITURES ON TANGIBLE ASSETS, CAPITAL INVESTMENTS AND EVALUATION OF INVESTMENT EXECUTION

1. Major expenditures on tangible assets and capital investments of HYDROBUDOWA POLSKA Capital Group.

Major expenditures on tangible assets of HYDROBUDOWA POLSKA Capital Group in 2009.

No.	Investment description	Value (PLN in thousand)
1	Land property in Poznań at Sienkiewicza street	5 729
2	Reconstruction of the building	2 907
3	Intermediate stations - 11 pieces	2 096
4	Trucks - 6 pieces	635
5	Cars and vans - 8 pieces	583
6	Crane Equipment	347

Capital investments of HYDROBUDOWA POLSKA Capital Group in 2009

No.	Investment description	Value (PLN in thousand)
1	Purchase of 5 000 shares in P.R.G. "METRO" Sp. z o.o.	5 000

2. Feasibility assessment of investment projects

Cash in possession of HYDROBUDOWA POLSKA Capital Group, incomes from series K shares issued in April 2008 and signed credit agreements secure the planned expenditures connected with ongoing investments.

XX. EVALUATION OF EXTRAORDINARY FACTORS AND EVENTS

IMPACT OF SECURING CURRENCY EXCHANGE RATES ON THE FINANCIAL RESULTS OF HBP CAPITAL GROUP

In 2009, the Group concluded a few forward transactions for the total value of EUR 24 000 000, to secure margin on the contract named: "Construction of sewage transport system from left-bank Warsaw to Czajka Wastewater Treatment Plant - Phase I.

Other transactions active as at 31 December 2009 were concluded in years 2008-2009. All long-term hedging transactions concerned only future currency options, using standard financial forward instruments.

HBP Capital Group did not conclude any transactions for speculation purposes. Hedging transactions have been made according to the binding financial policies and concerned agreements signed with investors and denominated in Euro. There were not of speculative nature and were concluded within financial policy, in order to secure future cash flow from sales revenues (long-term construction contracts). Due to open positions on the currency market, HBP Capital Group secured some cash flows (concerning sales revenues) for 2010 to the amount of EUR 99.94 million (of which EUR 56.58 million in the first half of 2010) and for the amount of EUR 18.51 million. According to information submitted by the banks, the balance evaluation of forward transactions as at 31 December 2009 amounted to minus PLN 50 750 000. This amount includes PLN 5 050 000, which resulted due to securing of incomes of HBP Capital Group Result on forward transactions completed in 2009 was minus PLN 71.95 million, which has been recorded and accounted for in the profit and loss account. Comprehensive result of both open transactions and those closed in 2009 was minus PLN 77 000 000

At the same time the Board of Hydrobudowa Polska SA would like to underline that due to high EUR exchange rate, the HBP Capital Group yielded higher profits, translated in PLN, on construction contracts. This compensated for the negative impact of currency options in 2009. Currency transaction concluded by the Group have the aim to reduce the negative impact of foreign exchange changes on operational activity.

Hedging contracts are concluded in accordance with the strategy of PBG Group, aimed at securing business activities against exchange rate fluctuations.

The basis of the strategy is to adjust hedging instruments to the scheduled securing transactions of a contract with regard to net value, currency rate, time span and quarterly income from currency transactions. In order to minimize the impact of the currency fluctuations on operating revenues of the companies from the Capital Group, only forward transaction would be concluded. HBP Capital Group SA is running hedge accounting, which requires quarterly assessment of the hedging efficiency.

The Board of Directors would like to underline that the hedging policy secures the execution of contracts at planned margins, regardless of currency fluctuations and does not have an impact on the fundamental valuation of HBP Capital Group SA. At the same time, hedging instruments enable precise evaluation of periodical profits on contracts, and none of the concluded transactions is of speculative character.

The Board of Directors would like to inform that HBP SA has not concluded CIRS transactions

XXI. DESCRIPTION OF RISKS AND THREATS FACTORS THAT HAVE AN IMPACT ON THE DEVELOPMENT OF HYDROBUDOWA POLSKA CAPITAL GROUP

Competition risk

HYDROBUDOWA POLSKA Capital Group provides the following services: major contracting, modernization, operation of hydraulic engineering, water and sewage facilities. These sectors are characterized by high competitiveness among companies, both domestic and foreign ones. The biggest players possess high equities and high-quality equipment, relevant for the execution of investments. It becomes crucial when it comes to high requirements that companies need to meet when they take part in tenders for construction works.

The key factors behind the competitiveness of a company are - apart from high level of equity assessed by investors as a guarantee of performance - price, experience, quality of services, effective organizational structure. These are the key for efficient execution of contracts.

The Group's strategy focuses on strengthening its market position and competitive advantage through constant improvement of the quality of provided services, offering complex solutions, flexibility and maintaining and developing its competences.

Big market competition forces companies to provide services at competitive prices. Therefore, the crucial part of our strategy is and will be to submit best quality offers. Moreover, it is necessary to maintain production capacity i.e. appropriate equipment and manpower, at the level which will allow providing high-quality services, meeting the investors' expectations.

Poland's membership in the European Union may encourage international companies providing services similar to those of the Capital Group, to enter the Polish market. This might increase the competition and cause reduction of profit margins. HYDROBUDOWA CAPITAL GROUP tries to prevent these threats by implementing quality systems such as ISO 9001:2000, AQAP 2120, ISO 14001:2004 and PN-EN ISO 9001:2001 and through cooperation with foreign companies from the same market, by acting jointly in many projects as a consortium leader or partner.

Risk of unreliable suppliers of materials and subcontractors

Among the immediate environment of the Group, we can count suppliers of material and services. The quality of cooperation between HYDROBUDOWA POLSKA SA and its suppliers and subcontractors has a direct impact on the executed contracts. For this reason, it is important that this cooperation be of the best quality.

HYDROBUDOWA POLSKA CAPITAL GROUP reduces the risk of unreliable suppliers of materials and services through:

- cooperation with partners with established position on the market, who possess necessary credentials,
- diversification of suppliers,
- negotiation of favourable contract terms for the Company.

Economic risks in Poland

Macroeconomic factors have an influence on the achievement of strategic goals and results of HYDROBUDOWA POLSKA Capital Group. These factors are: GDP growth, inflation, general condition of the Polish economy, changes in the Polish law. The unfavourable changes of macroeconomic factors may decrease the number of contracts executed by the Group and in consequence on its financial condition.

Risks associated with the availability of the funds from the European Union

Contracts executed by HYDROBUDOWA POLSKA Capital Group are financed from the European funds to a large extent. Thus, there is a risk that if there are changes in conditions of granting the funds, both on the European and Polish level, the influx of funds for investments executed by the Group, may be decreased or difficulties will arise in obtaining them. If such a scenario develops there may be a decrease in demand for services provided by HYDROBUDOWA POLSKA which in consequence may lead to lower number of awarded contracts and to worse financial result of the Company.

Risk of unfavourable changes in tax regulations

In Poland, we can observe numerous changes in tax regulations. Moreover, many provisions remain imprecise and they lack clear interpretation.

Therefore, there is a risk of changes in current tax regulations and introduction of less favourable tax regulations for the Capital Group or its customers, which may in turn affect the Group's financial results, either directly or indirectly.

Risk of exchange rate

The group operates mainly on the domestic market, however contracts are co-financed by the European Union and translated in EURO. The fact that the Capital Group yields most of its

profit from agreements financed by the European Union, makes the Group dependent on currency fluctuations.

HBP Capital Group undertakes the following actions to minimize the risk of exchange rate:

- using financial instruments such as *forwards*,
- signing contracts with suppliers and subcontractors in Euro.

In the long-term this risk shall be reduced, if Poland adopts Euro as its currency.

Risk of seasonality of sales

Most of sales revenues of HBP Capital Group are generated from services provided in the construction sector, which is characterized by seasonality of sales. This is caused by weather conditions in winter season, which often make some work impossible to perform.

Thus, we cannot rule out harsher weather conditions in the incoming years, and their impact on the level of profits of Hydrobudowa Polska, e.g. long lasting low temperatures can stop construction works and in consequence postpone revenues of the Company.

Therefore, to prevent the weather risk, most of the investments awarded from our customers shall be scheduled to start in the second quarter of a calendar year and shall be scheduled to end in the last months of a year, before the winter season starts. Moreover, we strive to obtain contracts of a high unit value, which ensue long periods of executed works.

At the same time, we cannot rule out that investment cycles of future investments will lapse and this will cause postponing some of planned sales revenues to future periods.

Arguably, these factors have an influence on the level of sales revenues, which are usually the lowest in the first quarter and they increase during in the second half of the year.

Risk factors directly related to the activity of the Capital Group

Risk related to tenders, which HYDROBUDOWA POLSKA SA Capital Group takes part in

It is possible that HBP Capital Group, despite starting in numerous tenders and preparing for the planned ones, do not get contracts with the total value that would enable:

- the execution of the published forecasts, and
- internally scheduled increase in the business activity in subsequent years.

It may be the result of losing some tenders by the Company. Moreover, some tenders may be challenged by entities which lost, due to formal and legal reasons.

The risk of insufficient number and value of contracts is relatively small for the planned growth scale in subsequent years. This opinion is based on past results of HBP Capital Group, when it comes to tender competition, and the estimated value of contracts, which, to the best knowledge of the Company, are planned for 2010-2011

Notwithstanding the foregoing, there exists a risk of delays in the contract awards, which the Group is starting at. These delays may be caused both by longer tender procedures and

factors of formal and legal nature. This in consequence may lead to postponing of the incomes planned by the Capital Group and worse financial results.

Risk of losing key staff

The Capital Group bases its activities on knowledge and experience of its highly qualified staff, especially engineers. The key method of their recruitment is to offer competitive work conditions and salary.

Given the labour market situation in Poland there is a risk of losing key staff. Poland's membership in EU and open labour markets are also a significant threat. There is a potential risk of staff churn involving employees of key importance for the Group's development, which in turn might affect the quality of services. Thus, the Boards focuses on protecting the most valuable employees, relevant to achieve mission and goal of the Company.

In order to reduce the risk of losing key staff, the Capital Group undertakes the following actions:

- monitors the labour market and offers competitive working conditions and salaries,
- implements appropriate motivation and rewards systems for the achieved results
- introduces flexible salary systems in line with the strategy of the Capital Group,
- organizes systematic trainings,
- develops relation between the Company and employees, through meetings and incentive travels.

Risk related to non-performance of contracts

Construction contracts contain a series of provisions about the proper and timely performance of the works, appropriate removing of defects and faults, providing guarantee deposit or securities to the bank.

Security is usually paid on signing of contract and accounted for after completion of the contract. The value of security depends on the type of contract. Usually, the value is 10% of the gross contract value.

In the case of non-performance or undue performance there is a risk claiming contractual penalties to be paid or the contract to be terminated.

In case of dispute with the investor as to the quality of timeliness of the works, the security may remain unpaid until the end of the contract. In many cases, such disputes can lead to lengthy lawsuits.

Furthermore, under contracts with bank or insurance guarantee provisions, the Contractor shall carry out repair works within the guarantee.

In order to minimize the risk, HBP Capital Group undertakes the following actions:

- insures contracts and services provided by its subcontractors,
- acts according to ISO 9001:2001, which minimize the risk of quality problems,
- continuously monitors quality and progress of work,
- uses IT software to manage ongoing contracts,
- develops qualifications of personnel directly involved in the execution of contracts, through thorough training programme for certified project managers,
- transfers risks to the cooperation agreements concluded with the manufacturers and material suppliers, subcontractors (product liability, responsibility for services, the differences between ordered and delivered products, price increases, etc.).

Risk related to current operations

The Group's operations, especially works involving running equipment and facilities, may be a potential source of threats, including the possibility of a breakdown causing human or property losses.

HBP Capital Group prevents these threats by:

- Insuring its operations against civil liability;
- Consistently equipping employees with new, up-to-date protection equipment;
- Training and development of staff qualifications;
- Regular trainings with regards to H&S and its supervision.

Risk related to order portfolio

development of the group HBP depends on the type, quantity and value of projects conducted within business activities. Despite broad market prospects for environmental protection and hydraulic engineering in Poland, the Company must meet a number of formal conditions, specified in tender specifications in order to obtain contracts.

In order to do this, the Group:

- identifies market needs through monitoring of the Bulletin of Public Tenders, insight into sector requirements on the regional and national levels.
- submits tender offers free of legal and formal defects,
- runs a reference record, issued by clients,
- follows all law regulations on public tenders, which allow the Company to participate in tender procedures.

Risk of lack of liquidity

The Group may be exposed to lack of liquidity due to specific payment terms of long-term contracts of high value and necessity of involving significant amount of funds.

Long intervals between expenditures on contracts in progress and payment dates of invoiced works often force the Company to use various financial products such as receivable purchasing, factoring and revolving credit.

In order to minimize the risk, HBP Capital Group undertakes the following actions:

- focuses on maintaining good relations with financial institutions.
- secures itself by maintaining access to credit and guarantee limits.

XXII. STRATEGY OF HBP CAPITAL GROUP

The strategy of HBP Capital group is based on stable growth. The Group focuses on expanding its activities in the construction sector, which is the most profitable.

The aim of the Group is to maintain the leading position with regard to the production capacity, share on the market, level of incomes and returns.

Thus, the Group sees prospects for further development in the markets of environmental protection and hydraulic engineering.

The European Union assigned EUR 28 billion until 2013 to the Operational Programme Infrastructure and Environment in Poland. Of these amount, EUR 5 billion shall be attributed to the protection of environment. This amount becomes bigger if we take into account the own contribution of investors, (20% of every investment)

Beneficiaries of these funds are mainly local and regional authorities. Should they be awarded these funds, there will be bigger demand for services offered by HBP Capital Group

The main priority within the environment protection is the improvement of flood safety.

The planned investments in this area are:

- increasing the capacity of reservoirs by about 2 billion cubic metres to about 3.3 billion cubic metres, including the planned storage reservoir in Racibórz, which estimated cost is PLN 650 million;
- reconstruction of about 1 000 km embankments,
- river regulation along about 4000 km, including the regulation of Świna and Żuławy for about EUR 550 million,

According to estimates of the Ministry of Environment the total value of works related to hydraulic engineering infrastructure will amount to PLN 23 billion until 2020. This amount contains both new investments as well as the modernization of the existing facilities.

One of the most important investments is the "Programme for Odra 2006".

Its aim is the construction of flood protection systems, removal of flood damages and using the river's potential in terms of energy production. Funds will partially come from the European Union.

According to a financial plan of the Ministry of Environment, almost PLN 3.1 billion will be assigned to flood protection facilities until 2016. Reconstruction and modernization of river embankments will cost PLN 364 500 000

The largest projects are:

- construction of the storage reservoir in Racibórz (estimated cost - ca. PLN 650 million),
- construction of water network in Wrocław (estimated cost - ca. PLN 400 million),
- construction and modernization of river embankments in Kędzierzyn Koźle, Brzeg, Oława, Brzeg Dolny, Nowa Sól, Krosno Odrzańskie and Słubice,
- construction and modernization of river embankments in Wrocław, Opole, Nysa and Racibórz,
- construction of Chróścice dam in the municipality of Dobrzeń (estimated cost - over PLN 60 million)
- construction of flood protection facilities in Lwówek Śląski (estimated cost - over PLN 20 million).

A good example of how big impact these funds have on the civil engineering sector is that in years 2000-2003 Poland was awarded EUR 0.7 billion from the European Funds.

The value of qualified expenditures in 2004-2006 was PLN 6.3 billion, and the part of funds financed by the Union was PLN 5.1 billion.

The total value of funds for the Operational Programme Infrastructure and Environment for 2007-2013 will be EUR 37.6 billion, of which EUR 27.9 billion financed by the European Union and EUR 9.7 million is an own contribution (including expenditures on the protection of environment which amount to over EUR 5 billion).

Industrial construction is another sector, where the Group plans to strengthen its position.

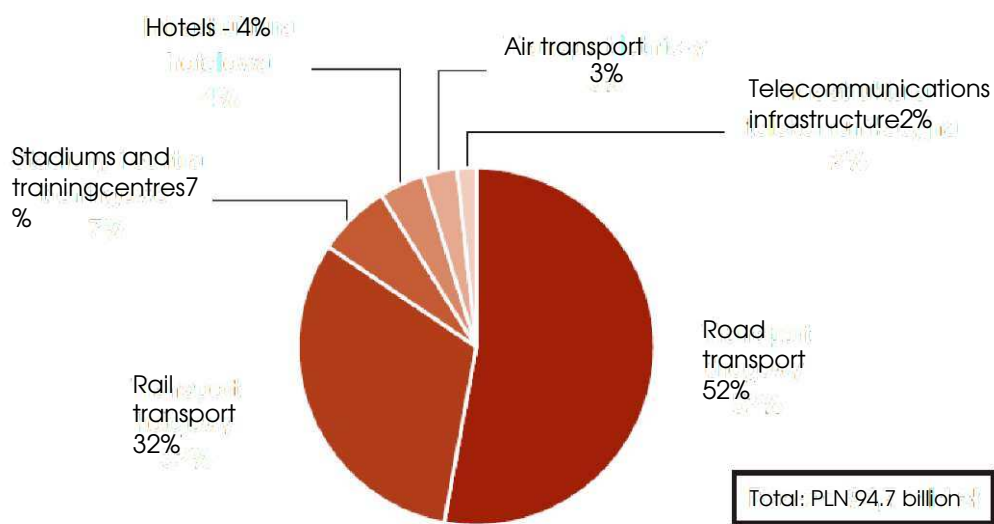

An opportunity for HBP Capital Group are investments related to the European Football Championship in 2012, held in Poland.

The value of projects related to the championship is estimated at nearly PLN 95 billion, twice as more as projects in Ukraine.

More than half of the investments will be road projects, and nearly one-third will be related to development of rail transport in Poland.

The majority of tenders for projects related to EURO 2012, was awarded in 2009. In 2010, most investments will be in progress, thus years 2010-2011 should be much more profitable for the Polish construction industry than the present year.

Investments related to the organization of Euro 2012 in Poland

Source: Report on the European Football Championship in Poland and Ukraine in 2012. The scheduled construction investments', PMR Publications, PMR department, 2009.

In 2009, HBP Capital Group signed contracts for the construction of stadiums in Warsaw, Poznań and Gdańsk. They enable the company to diversify income structure and to become less dependent on projects related to environmental protection and hydraulic engineering. Due to big competition in this sector, the Capital Group will focus on larger projects, which require more credentials.

Other promising sector for HBP Capital Group is the construction of recycling plants in the biggest Polish cities. The cost of plants only in Poznań, Kraków, Olsztyn and Szczecin will be about PLN 2 billion.

Another investment of big importance for the Group is the construction of the second line of metro in Warsaw. Here the estimated cost will be EUR 1-1.2 billion. Therefore, in the previous year, PRG "Metro" Sp. z o.o. joined the Capital Group. Its credentials and experience in this field will help significantly.

Due to the fact that the Polish market is very attractive and yields bigger profits than foreign markets, the Capital Group does not plan major investments abroad.

XXIII. MAJOR ACHIEVEMENTS IN THE FIELD OF RESEARCH

The companies from the Capital Group did not observe achievements for the period included in the financial statements that would have significant impact on the financial result.

XXIV. CURRENT AND FUTURE FINANCIAL CONDITIONS

Achievements that had the biggest impact of on the financial condition of the Group in 2009, were agreements, with high value and of national importance:

- Construction of the National Stadium in Warsaw, together with auxiliary infrastructure,
- II phase of construction of the Baltic Arena - the football stadium in Gdańsk Letnica,

The Group's main priority was to obtain financing and securities for correct performance of high value projects. The biggest projects are for the construction of the above-mentioned stadiums and for:

- Development of the Municipal Stadium in Poznań, at Bułgarska 5/7 street. The contract includes construction of I and III stand, construction of rood for I, II and III stand.
- Design project and construction of the Waste Management Plant in Gdańsk-Szadółki
- Construction of a sewage transport system from left-bank Warsaw to Czajka Wastewater Treatment Plant - Phase I.

HBP Capital Group extended all agreements on credit limits until 31.12.2009. It also started a cooperation with Nordea Bank Polska SA and concluded an agreement on credit of PLN 60 000.

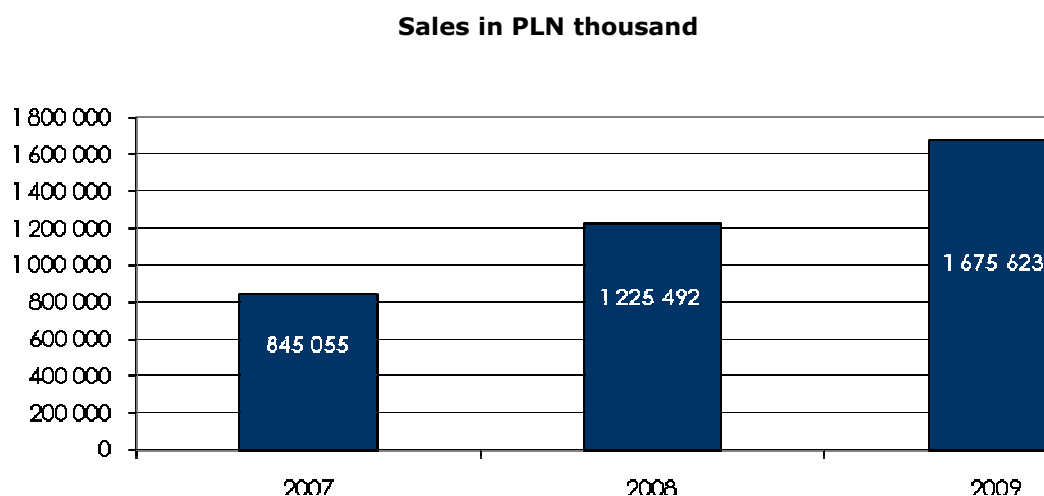

On 25 June 2009, Hydrobudowa Polska SA signed an factoring agreement with Pekao Faktoring Sp. z o.o., with regard to financing of the contract for design and construction of Waste management plant in Gdańsk-Szadółki.

In August 2009, Hydrobudowa Polska SA signed factoring and credit agreements with Raiffeisen Bank Polska SA, with regard to the contract for the second phase of construction of the Baltic Arena - the football stadium in Gdańsk-Letnica.

Revenues from sales

In 2009, the Capital Group observed an increase in sales revenues by 36.7% compared to 2008.

The revenues of HBP Capital Group increased from PLN 1.2 billion in 2008 to PLN 1.7 billion in 2009.

In the last few years, the sales of services of HBP capital group were on the rise. This is a result of acquiring new companies and new contract, with high value, which in consequence leads to bigger order portfolio

The biggest sources of revenues in 2009 were the following construction contracts:

Contract Name	Value of revenues in 2009 PLN in thousand
Development of the Municipal Stadium in Poznań, at 5/7 Bułgarska Street. The contracts includes construction of I and III stand and the roof for I, II and III stand.	320 061 642.52
Construction of the National Stadium in Warsaw, together with related infrastructure.	145 876 942.84
Design project and construction of the Waste Management Plant in Gdańsk-Szadółki	116 438 742.44
Construction of a sewage transport system from left-bank Warsaw to Czajka Wastewater Treatment Plant - Phase I.	81 012 635.00
Development of FORDON Sewage Treatment Plant in Bydgoszcz - Phase I	80 640 880.12
Modernization of the Left-Bank Sewage Treatment Plant in Poznań, at Serbska Street	74 146 768.85

Cost of sales

In 2009, cost of sales amounted to PLN 1.5 billion and was higher by 36.9% compared to 2008.

Administration costs

In 2009 administration costs amounted to PLN 50.5 million and were lower by 1.3% compared to the previous year. The level of administration costs in sales revenues decreased from 4.2% in 2008 to 3.0% in 2009, i.e. by 1.2%.

Other operating revenues

In 2009, other operating revenues amounted to PLN 23.1 million, of which most of them were income from the revaluation of property value - PLN 10.2 million, and from the reversal of assets impairment - PLN 8.4 million.

These revenues are higher by 62% compared to the previous year.

Other operating expenses

In 2009, other operating expenses amounted to PLN 22 million and were lower by 16% compared to 2008. They consisted of write-offs of receivables - PLN 13.9 million and compensation from insurance agreements - PLN 4.6 million.

Operating profit - EBIT

On 20 July 2009, BZ WBK SA made a share offer to the entitled persons. Acceptance of the offer was regarded complete by filling in and signing of the Offer Acceptance Form.

XXXIII. RESTRICTION OF ASSIGNMENT OF SECURITIES OF HYDROBUDOWA POLSKA SA AND RESTRICTIONS IN CARRYING VOTES FROM THESE SECURITIES

All shares of the Company are ordinary bearer shares. There are no restrictions with regard to assignment of shares and carrying of votes of the Company.

XXXIV. CORPORATE GOVERNANCE STATEMENT OF HYDROBUDOWA POLSKA SA

1. A set of the Corporate Governance rules adopted by HYDROBUDOWA POLSKA SA

HYDROBUDOWA POLSKA SA adopted rules of corporate governance published in "Good practices of the companies listed at the Warsaw Stock Exchange". The document is available at <http://www.corp-gov.gpw.pl>

2. Withdrawing from the code of corporate governance

The Board of Directors of HYDROBUDOWA POLSKA SA hereby declares that the Company followed the rules of the Corporate Governance, set in "Code of good practises of the companies listed at the Warsaw Stock Exchange"

3. Description of systems of internal control and risk assessment in the company with regard to drawing up financial statements and consolidated financial statements.

The Board of Directors is responsible for the system of internal control in the Company and its efficiency during drawing up financial statements and periodic reports, in accordance with the Regulation of the Minister of Finance of 19 February 2009 on current and periodic information provided by issuers of securities and conditions for recognition as equivalent, the information required by laws of non-EU member states. (Journal of Laws of 2009, no. 33 item 259).

The financial statements are drawn up by the accounting department of the Company in co-operation with other departments, responsible for data, which are not directly shown in the accounting ledgers of the Company, and which are a part of the financial statements.

Due to a specific nature of the branch, the Controlling Department plays an important role in drawing up the financial statements. An appropriate assessment and analysis of the contract budgets is a key factor to minimize risk for the Company. The basis for calculation of income and costs of the ongoing contracts are budgets of specific contracts according to IAS 11. The budgets are drawn up to the best knowledge and experience of the Company. During the preparation and implementation of construction projects, all budgets are analysed and updated by the responsible persons on an on-going basis. This process is based on the formal set of rules adopted by the Company and is subject to specific supervision by the Management Board.

When presenting its financial information, the Company applies consistent, specific accounting principles in accordance with the principles of measurement and presentation applied across the entire PBG Capital Group.

Chief Accountant - Proxy is responsible for drawing up the financial statements and sign the financial statements. He is also responsible for organization of the Accounting Department, which draws up the financial statements. The persons who prepare financial statements and are responsible for the control and co-ordination of the reporting process are specialists with the relevant knowledge and experience in this field.

Every member of the Board review the economical data and information in the financial statements while they are being drawn up and submits comments, which are considered during drawing up the financial statements. After the financial statements are drawn up, they are handed over for review or audit, pursuant to the applicable law.

Financial statements are reviewed or audited by an entity authorised to audit financial statements selected by the Company's Supervisory Board from among well-known auditing companies, guaranteeing the high quality of services and meeting the independence criteria.

When reviewing the Company's financial statements and accounts, the auditor meets with the key personnel of the Company, including members of the Board, and discusses specific matters of the financial statements. The final financial statements including the agreed adjustments (if any) made by the statutory auditor or any person involved in the preparation thereof or any member of the Management Board are read out again and signed by those persons.

Every year, the Company's Supervisory Board performs an assessment of the Company's audited financial statements to find out whether the statements are consistent with the underlying accounts and documents, as well as the actual situation. Results of this analysis are presented in the annual report of the Supervisory Board published by the Company.

Moreover, the Board of Directors frequently carries out an external audit, to check on the system of internal control and the risk of abuse. In 2007, Grant Thornton Frąckowiak Sp. z o.o. (formerly HLB Frąckowiak i Wspólnicy Sp. z o.o.) carried out an internal audit in the Company.

The Company's risk management during drawing up the financial statements is based on the identification and assessment of areas of risk and the determination of actions necessary to reduce or eliminate these risks.

4. Shareholders holding large blocks of the Company's shares, either directly or indirectly; number of shares held by these shareholders; percentage share in share capital; number of votes carried by these shares and their percentage share in the total vote at the General Meeting

To the best of the Company's knowledge, the following shareholders hold shares representing at least 5% of the total votes at the General Meeting of Shareholders:

No.	Shareholder	Number of shares	Number of votes	Share in equity of the Issuer	Share in total number of votes at the General Meeting of Shareholders
1.	PBG SA	132 098 185	132 098 185	62.74%	62.74%
2.	ING OFE	10 550 000	10 550 000	5.01%	5.01%

5. Holders of any securities carrying special rights of control and description of these rights

There are no securities carrying special rights to control the Company.

6. Any limitations regarding the exercise of voting rights, such as the limitation of voting rights for holders of the specific portion or number of votes, temporary limitations on voting rights, or any provisions under which the equity rights carried by the securities are separated from their holders

The Issuer's Articles of Association contain no provisions regarding any limitations of the exercise of voting rights by holders of the specific portion or number of votes.

7. Restrictions on assignment of securities of the Issuer

There are no restrictions with regard to the assignment of shares and to exercise the right to vote. All shares of the Company are ordinary bearer shares.

8. Rules for appointment and dismissal of the managements personnel, their rights, and in particular the right to issue or buy-back shares.

Board of Directors

The Board of Directors acts pursuant to the Code of Commercial Companies, Articles of Association and the Rules of the Board, adopted by the Board on 16 January 2009 and approved by the Supervisory Board on 10 March 2009.

The Board's competencies cover all matters specified in the Code of Commercial Companies and the Company's Articles of Association.

According to section 35 of the Articles of Association, the Board of Directors consists of the President of the Board, from one to six Vice-Presidents of the Board and from one to six members of the Board.

Only a natural person with full legal capacity may be appointed member of the Board of Directors.

Company may be represented by two members of the Board acting jointly or one member of the Board and a Proxy. The Board may grant full powers to act on behalf of the Company. Powers of attorney may be general, limited (authorisation to perform certain types of activities) and special (authorisation to perform specific activities).

The Board may appoint proxies of the company, in accordance with the binding regulations. Authorised proxy must be approved by all members of the Management Board.

The Board defines the strategy and main objectives of the Company, submit them to the Supervisory Board and later on is responsible for their implementation and execution. The Board of Directors ensures the transparency and efficiency of the management of the Company and that it follows good practices and rules of law.

Members of the Management Board shall be appointed, dismissed and suspended by the Supervisory Board pursuant to the Code of Commercial Companies and the Articles of Association. Candidates for the members of the Board of Directors are presented by the President of the Board.

The Supervisory Board signs and terminates agreements with the members of the Board. The agreements are signed by the Chairman or Vice-chairman of the Supervisory Board. Other activities connected with the employment of Management Board members shall also be based on the same procedure.

Remuneration of the Management Board members shall be determined by the Supervisory Board, taking into account its incentive nature and ensuring effective and trouble-free management of the Company.

The term of office of members of the Board of Directors shall expire:

- 1) at the time of his dismissal from the Board
- 2) on the day of the General Meeting approving the financial statements for the last full financial year of performing the function of a Management Board member,
- 3) upon their death;
- 4) upon their resignation.

If a member resigns from the Management Board, resignation shall be delivered to the Supervisory Board, with a copy for the Management Board.

President of the Board manages works of the Board and coordinates other members of the Board. In case of temporary absence of the President, his duties are taken over by an assigned member of the Board.

Without the consent of the Supervisory Board, members of the Management Board must not:

- 1) engage in any business competitive to the Company's business;
- 2) participate in any competitive entity as a partner in a (private) partnership, or as a member of any authority of any company, or as a member of any authority of any other competitive legal person,
- 3) hold interest in any competitive company, in the case of holding at least 10% of shares or the right to appoint at least one member of the management board.

Any member of the Board shall promptly notify the Supervisory Board of any circumstances listed above. Member of the Board shall remain fully loyal to the Company and shall refrain from taking any actions with the exclusive goal to gain one's own benefits. If a member of the Board receives any information on any potential investments or other profitable transaction related to the Company's business activities, she/he should immediately notify the Board of Directors thereof to make it possible for the Board to consider whether this option may be used to the benefit of the Company. Member of the Board may use such information or reveal it to the third party only with a consent of the Board and if it does not affect the interest of the Company. Member of the Board shall inform the Supervisory Board of any conflict of interests in connection to the performed function or of the possibility of conflict of interests.

Any activities outside the ordinary management of the Company must be approved by the Management Board's resolution. In particular, the Board's resolution shall be required in the following cases:

- 1) taking decisions on material investment projects and methods of their financing,
- 2) determining strategic plans for the Company's development and defining the Company's financial targets,
- 3) determining the Company's organizational structure,
- 4) determining the Company's regulations and other internal normative acts;
- 5) determining the internal division of responsibilities among members of the Board of Directors,
- 6) determining the assumptions of the payroll and personnel policy, including the terms of incentive schemes.

With the exception of the above matters, individual members of the Board of Directors shall be responsible for the individual management of the Company's affairs resulting from the division of responsibilities.

In case of any obstacles to the performance of duties by a member of the Board, he shall immediately inform the Board about such obstacles. The President of the Management Board shall decide which of the remaining members of the Management Board shall temporarily perform these duties.

Supervisory Board

The Company's Supervisory Board acts pursuant to the Code of Commercial Companies, the Company's Articles of Association, and Regulations of the Supervisory Board of 18 June 2008.

The Supervisory Board is composed of five to nine members appointed at the General Meeting of Shareholders for the period of three years, but these mandates expiry on the date of the General Meeting of Shareholders approving the financial statements for the last full financial year of the Supervisory Board's term of office.

The number of members of the Supervisory Board is determined every time at the General Meeting of Shareholders, with absolute majority of the votes. The Board members may be re-

elected. At least half of the Supervisory Board members shall be independent, i.e. they shall be persons who meet the following requirements:

A member of the Supervisory Board is considered independent if he/she:

- 1) is not employed by the Company or any Related Entity;
- 2) is not members of the supervisory and management bodies of the Related Entity;
- 3) does not hold at least 5% of total votes at the General Meeting of the Company or the Related Entity;
- 4) is not a member of the supervisory board or management board of any related party; carries at least 5% of the votes at the General Meeting of Shareholders or the General Meeting of the Related Entity
- 5) is not ascendant, descendant, spouse, brother, sister nor parent of the spouse, or adoptee of any of the persons listed in the above-mentioned points.

The foregoing conditions shall be fulfilled throughout the term of office. Within the meaning of the Articles of Association, an entity is a Related Entity, if it is the Parent Company for the Company, a Subsidiary, or a subsidiary to the Parent Company to the Company. Within the meaning of these Articles of Association, an entity is a Subsidiary of another entity (Parent Company) if the Parent Company

- 1) holds the majority of votes in authorities of another entity (subsidiary), also by way of arrangements with other eligible persons, or
- 2) is entitled to appoint or dismiss the majority of members of company's bodies of that entity (the Subsidiary); or members of company's bodies of that entity (the Subsidiary); or
- 3) if more than 50% of members of the Board of other entity (Subsidiary) is at the same time, members of the board or senior executives of the Parent Company or another subsidiary or associated entity of the Parent Company.

A subsidiary of the Parent Company shall also be an entity, which is a subsidiary of another entity, which is a subsidiary of the Parent Company to the Company.

The Supervisory Board shall exercise permanent supervision over the company operations in all aspects of its activity. The Supervisory Board is responsible for the assessment of the financial statements and the report of the Board of Directors in terms of their accuracy with the accounting ledgers and the current state, for assessment of the Board's decision on the distribution of profits or loss coverage and for submitting annual report from these assessments at the General Meeting of Shareholders.

The Supervisory Board is also responsible for:

- 1) appointing and dismissing members of the Board and determining the number of members of the Board,
- 2) suspending, for important reasons, any or all members of the Board,
- 3) assigning members of the Supervisory Board, for a period not exceeding three months, to temporary duties of members of the Board, who have been dismissed or tendered their resignation or due to other reasons cannot perform their duties,
- 4) determining remuneration of the members of the Board,
- 5) selecting an independent audit;
- 6) approving the rules of the Board of Directors,
- 7) approving of acquisition or sale of real estate, perpetual usufruct or
- 8) share in a property

In order to perform its duties, the Supervisory Board may examine all documents of the Company, demand reports and explanation from the Board of Directors and other employees and assess the financial condition of the Company.

A member of the Supervisory Board shall inform other member of:

- 1) any conflict of interest with the Company. In such a case, the member shall refrain from taking part in discussions and from voting on a resolution regarding the matter where the conflict of interest has arisen. The information on the reported conflict of interest should be included in the minutes of the Supervisory Board's meeting.
- 2) any personal, actual and organisational relations between the Supervisory Board member and any shareholder, in particular with any majority shareholder, which may have an impact on the Company's business.

Personal relations with a shareholder shall mean first or second degree relation. Actual relations with a shareholder shall mean permanent business relations. Organisational relations with a shareholder shall mean relations arising from contracts for employment or similar agreements.

The Company has the right to request the member of the Supervisory Board to submit a statement on the aforementioned relations.

8. Amendment of the Issuer's Articles or Memorandum of Association

Amendment of the Company's Articles of Association shall require:

- a resolution of the General Meeting of Shareholders adopted by the majority of three fourths ([section 415 of the Code of Commercial Companies.](#)), in the form of a notaries deed (a resolution on a significant change in the business activity of the company requires the majority of two thirds of votes (section 416 of the Code of Commercial Companies.))
- a registration at the National Court Register (section 430 of the Code of Commercial Companies)

9. Functioning and primary competencies of the General Meeting of Shareholders, rights of shareholders and methods of their exercise, in particular principles arising from Regulations of the General Meeting

9. 1. General Meeting of Shareholders

The General Meeting of Shareholder acts on the basis of the Rules of the General Meeting of Shareholders.

Shareholders may participate in the General Meeting and exercise their voting rights in person or by a proxy or other representative.

Proxy authorisation to act for and on behalf of a Shareholder shall be granted in writing or in an electronic form, in which case a secure electronic signature verified based on a certificate is not required.

Other representatives of Shareholders must submit relevant documentation confirming the right to act on their behalf (in particular, duplicates from the relevant registers).

A Shareholder may attend the General Meeting using means of electronic communication, and in particular:

- a) real-time transmission of the General Meeting of Shareholders at the Company's website,
- b) two-way real-time communication enabling the Shareholders who do not participate in the General Meeting in the venue where it is held to take the floor during the General Meeting,
- c) exercise of the voting rights in person or by proxy before or during the General Meeting.

Procedures of participation in the General Meeting and exercise of the voting rights shall be defined by the Board of Directors of the Company before the set date of the General Meeting.

Shareholders, who possessed shares of the Company 16 calendar days before the General Meeting may attend the General Meeting of Shareholder.

The General Meeting of Shareholders is deemed valid if the shareholders present represent at least forty (40)% of the share equity, unless the Code of Commercial Companies stated otherwise.

Members of the Supervisory Board and the Board of Directors shall attend the General Meeting of Shareholders. Absence of any member of the Supervisory Board or the Board of Directors at the General Meeting shall be explained. The explanation is submitted at the General Meeting.

The statutory auditor should participate in the Annual General Meeting and in the Extraordinary General Meeting if the Company's finances are to be discussed thereat.

The General Meeting or its relevant part may be attended by experts and guests invited by the entities convening the Meeting, in particular when their participation is necessary to present expert opinions on matters under discussion to the participants of the General Meeting.

The task of the Chairperson is to ensure that the conduct of the Meeting is in line with the adopted agenda, the applicable laws, the Company's Articles of Association, and Regulations of the General Meeting, and that the rights and interests of all shareholders are respected.

The Chairperson may not remove matters from the agenda, change the order of the agenda, or introduce new matters of substance under discussion.

After addressing each matter included in the agenda, the Chairperson shall draw up a list of speakers and open a discussion, giving the floor to the participants in the adopted order of speaking. The Chairperson shall decide when to close the discussion. The Chairperson may give the floor to members of the Management Board and the Supervisory Board, as well as the invited experts, out of turn. They shall not be taken into account when determining the list and number of speakers. Speakers may only discuss matters included in the agenda and refer to the item currently under discussion. When discussing every item of the agenda, depending on its subject area, the Chairperson may set the time of speaking for a single speaker, both for the statement and the reply. The said restriction cannot be applied to members of the Board of Directors and Supervisory Board, or the invited experts. The Chairperson shall decide on whether to extend the time for presentation or give extra time to the speaker.

Each participant of the General Meeting shall have the right to ask questions to the Management Board, Supervisory Board and the Company's statutory auditor with regard to matters included in the agenda, with respect to the matter currently under discussion. Members of the Supervisory Board, the Management Board, and the statutory auditor shall, within their powers, answer these questions, to the extent necessary to decide on the matters under discussion at the General Meeting. All answers should take into account the fact that the Company should provide information in compliance with the provisions of the Law on Public Trading of Securities, and certain information cannot be provided otherwise than pursuant to these provisions. Immediately after the discussion, the Chairperson orders the vote on formal motions. At the request of participants of the General Meeting, their written statements may be included in the minutes. Such statements are adopted at the end of the Meeting.

Resolutions of the General Meeting shall be adopted by standard majority of votes, unless the law or the Articles of Association require a qualified majority to pass a given resolution. Vote on appointing and dismissal of the management persons is secret.

9.2. General rights of the General Meeting

Pursuant to § 27 of the Articles of Association of HYDROBUDOWA POLSKA SA, shareholders at

the General Meeting has the right to:

1. approve the report of the Board of Directors on the activity of the Company and the financial statements for the previous financial year and acknowledge of the fulfilment of duties by members of the (management) board
2. decide in respect of claims for damages of the Company,
3. sale and lease the company or its organized part and establish a limited property right on them,
4. issue of convertible bonds or bonds with pre-emptive rights,
5. buy-back shares, pursuant to section 362(1)(2) of the Code of Commercial Companies,
6. set remuneration rules of members of the Supervisory Board,
7. appoint and dismiss members of the Supervisory Board,
8. create, use and liquidate reserves and special funds,
9. adopt the Code of Conduct of the Supervisory Board,
10. decide whether to use or not specific provisions of the Corporate Governance Code of the Company, set by the Supervisory Board and the Board of the Warsaw Stock Exchange,

9.3. Rights of shareholders and the methods of their exercise

Pursuant to the Rules of the General Meeting of HYDROBUDOWA POLSKA SA, shareholders have the following rights:

1. Shareholders may participate in the General Meeting and exercise their voting rights in person or by a proxy or other representative.

Any such proxy shall be null and void unless granted in writing, and must be attached to the minutes of the General Meeting. Other representatives of Shareholders must submit relevant documentation confirming the right to act on their behalf (in particular, duplicates from the relevant registers). Members of the Board of Directors and employees of the Company may not act as proxies at the General Meeting.

2. Any shareholder has to right to run for the Chairman of the General Meeting or submit one candidate for the Chairman of the General Meeting.

3. Shareholders representing at least 10% of the Company's share capital may request the Company's Management Board to convene an Extraordinary General Meeting of Shareholders.

A written request to hold an Extraordinary General Meeting of Shareholders and to determine the agenda of the next General Meeting pursuant to Section 400 § 1 of the Code of Commercial Companies must include a justification.

4. Each participant of the General Meeting shall have the right to ask questions to the Management Board, Supervisory Board and the Company's statutory auditor with regard to matters included in the agenda, with respect to the matter currently under discussion.

5. Each participant of the General Meeting may put forward a motion on procedural matters. In the case of procedural requests, the Chairperson may give the floor to the requesting participant out of turn. At the request of participants of the General Meeting, their written statements may be included in the minutes. Such statements are adopted at the end of the Meeting.

10. Composition of the Management and Supervisory Board and its changes during the last financial year, as well as description of the functioning of the Issuer's management, supervisory, or administrative bodies and their respective committees

10.1. Composition and description of the Board of Directors

The following changes took place in the Board of Directors in 2009:

- -On 19 October 2009 Mrs. Joanna Zwolak resigned from the position of the Member of the Board. The reason for resignation were personal matters, which did not allow to combine the position of the Chief Accountant and a Member of the Board.
- -On the same day, the Supervisory Board of the Company appointed Mr. Szymon Tamborski to the Board and appointed him the Vice President of the Board.

As of 31 December 2009 the composition of the Management Board of the Parent Company was as follows:

Name and surname	Position
Jerzy Ciechanowski	President of the Board
Edward Kasprzak	Vice President of the Board
Jarosław Dusło	Vice President of the Board
Szymon Tamborski	Vice President of the Board
Andrzej Zwierzchowski	Member of the Board
Rafał Damasiewicz	Member of the Board

Until the date of publication hereof, composition of the Board of Directors remained unchanged.

The Board of Directors is competent in all matters related to the Company not restricted to competencies of the General Meeting of Shareholders or the Supervisory Board. The role, duties and Regulations of the Board of Directors are defined in a formal document. Individual members of the Management Board shall manage the specific areas of the Company's business, and their work is coordinated by the President of the Management Board.

10.2. Composition of the Supervisory Board and its committees

In 2009, the following changes occurred in the Supervisory Board:

- On 4 June 2009, Mr. Marcin Idziorek and Mr. Piotr Stobiecki resigned from the position of members of the Supervisory Board of HYDROBUDOWA POLSKA S.A., effective on the same day.
- On 4 June 2009 the General Meeting of Shareholders appointed a new member of the Supervisory Board:
 1. Mr. Leszek Auda
 2. Mr. Robert Oppenheim
 3. Mr. Jacek Krzyżaniak

- On 7 September 2009, Mr. Leszek Auda resigned from the position of a member of the Supervisory Board.

On 31 December the composition of the Supervisory Board was as follows:

Name and surname	Position
Małgorzata Wiśniewska	President of the Supervisory Board
Andrzej Wilczyński	Vice President of the Supervisory Board
Grzegorz Wojtkowiak	Member of the Supervisory Board
Przemysław Szkudlarczyk	Member of the Supervisory Board
Jacek Krzyżaniak	Member of the Supervisory Board
Robert Oppenheim	Member of the Supervisory Board

Until the date of publication hereof, composition of the Company's Supervisory Board had not changed.

The term of office of the Supervisory Board members last three years, and their remuneration is determined by the General Meeting of Shareholders. The Supervisory Board shall exercise permanent supervision over the company operations in all aspects of its activity. The Supervisory Board is responsible for the assessment of the financial statements and the report of the Board of Directors in terms of their accuracy with the accounting ledgers and the current state, for assessment of the Board's decision on the distribution of profits or loss coverage and for submitting annual report from these assessments at the General Meeting of Shareholders.

The Supervisory Board is also responsible for:

1. appointing and dismissing members of the Board and determining the number of members of the Board,
2. suspending, for important reasons, any or all members of the Board,
3. assigning members of the Supervisory Board, for a period not exceeding three months, to temporary duties of members of the Board, who have been dismissed or tendered their resignation or due to other reasons cannot perform their duties,
4. determining remuneration of the members of the Board,
5. selecting an independent audit;
6. approving the rules of the Board of Directors,
7. approving of acquisition or sale of real estate, perpetual usufruct or share in real property.

The role, duties and Regulations of the Supervisory Board are defined in a formal document. The Supervisory Board shall perform its duties jointly, but has assigned a part of its competences to specific persons or committees presented below.

The Supervisory Board of HYDROBUDOWA POLSKA SA formed the following committees:

1. Audit Committee
2. Remuneration Committee

The Audit Committee is composed of:

- Grzegorz Wojtkowiak – Chairman of the Audit Committee,
- Robert Oppenheim,
- Przemysław Szkudlarczyk.

The Audit Committee meets when necessary, but at least once a quarter.

In particular, the Audit Committee is responsible for:

1. assessing the independence scope of a selected independent auditor, advising the Supervisory Board on the selection of an independent auditor as well as on the terms of agreement with such an expert and the amount of his/her remuneration. Should the Supervisory Board select an independent auditor, other than the auditor recommended by the Audit Committee, such a decision must be supported with a detailed explanation.
2. analysis and assessment of relations existing in the Company, Supervisory Board itself and the Board of Directors, paying special attention to conflicts of interest which may occur or be disclosed, and taking actions aiming at eliminating this phenomenon.
3. ensuring optimum communication between the independent auditor and the Supervisory Board.
4. reviewing quarterly, semi-annual and annual financial statements received from the members of the Company subsidiaries; as well as quarterly, semi-annual and consolidated annual financial statements of the capital group.

Mrs. Małgorzata Wiśniewska is the chairman of the Remuneration Committee.

The Remuneration Committee is responsible for:

1. monitoring of remuneration practices and the amounts of remuneration in the Company,
2. defining the employment terms of the members of the Board of Directors and the senior management of the Company.
3. drawing up the bonus plan for the financial year.
